

OLIVIER RUEST

Hi everyone, my name is Olivier! I am a King's student from Quebec City studying Sociology. I'm on the Western Mustangs Football Team this year. I have a huge interest in mutual aid, personal development, and teaching. My goal is to make a difference in society through my involvement by investing quality time with people in need. The opportunity to provide help in my first language to English people is a first step in my involvement with Western, and I intend to do so diligently. I can't wait to meet new people who are motivated to learn and improve their French, because I know that I will be a great help to them!
