

KING'S

Accounting

School of MEM

King's proudly announces our newly-formed "School of Management, Economics, and Mathematics" (the School of MEM for short). This rebranding allows us to maintain the independence of our three departments while highlighting the professional orientation of our programs. We provide students with a leading undergraduate experience through our two programs: Bachelor of Arts in Economics and Bachelor of Management and Organizational Studies – both with several program streams.

School of Management, Economics, and Mathematics

A Place to Be. A Place to Become.

The Program

As part of the School of MEM, King's Accounting degree is approved by CPA Ontario for entry into the CPA Professional Education Program (CPA PEP), a must for anyone seeking to become a qualified accountant in Ontario. Companies use accounting to document and monitor their business, report to their stakeholders, and comply with regulations. It is about finding the most efficient way to document and convey information under certain constraints and requirements.

Workplace Skills

In addition to preparing you for the CPA PEP program, studying accounting at King's University College allows you to gain valuable workplace skills. Research indicates that employers seek to hire students with global understanding, critical thinking skills, and an active interest in the world. In addition to learning the key competencies and knowledge areas required by CPA Ontario, King's Accounting degree will also help you to improve your understanding of international business, critical analysis, and professional and ethical issues in the workplace.

EBM Gala, 2018

Beyond the Classroom

Typical career options for Accounting graduates can include:

- Public or private accounting, industry, tax specialist
- Corporate or private consulting
- Government sector accounting and education

Other Professional Sectors:

- Manufacturing
- Healthcare
- Not for profit
- Retail

"King's is a great place to get the education I need for the career I want. I was able to obtain the educational credits for my CPA designation while studying in a welcoming learning environment. The accounting program at King's truly opened the doors to my future!" - Jillian Adams '16
