

ECONOMICS (BA)

Honours Specialization in Economics

Specialization in Economics

Minor in Economics

Why Choose Our Economics Program?

Are you curious about how markets operate, how government policies shape economies, or why some countries thrive while others struggle? If you have a passion for understanding the forces that drive financial systems, individual behavior, and global trends, then an Economics degree from King's could be your gateway to an exciting and impactful career.

A BA in Economics can lead to a very lucrative career. Economics graduates regularly out-earn graduates from STEM and other business programs.

PROGRAM HIGHLIGHTS

1. Develop your Research Skills:

You have the unique opportunity to complete an undergraduate thesis based on an original research project guided by one of your faculty. The research skills developed throughout our Economics program open career pathways in banking, finance, and consulting. Many of our graduates are working at top banks, private equity companies, hedge funds, and consulting companies in Canada and around the world. These same research skills have also provided career paths as public policy analysts. Many of our graduates are working as public servants in critical policy areas (Department of Finance, Bank of Canada, Office of the Privy Council, Competition Bureau) at United Nations organizations (IMF, World Bank) and at other international agencies (OECD).

2. Gain Proficiency in Cutting-Edge Tools:

As a graduate from our Economics program, you will leave with a robust set of technical skills that are in high demand across industries. You will be proficient in the tools most essential for modern financial, economic, and business analysis, including:

- Excel
- VBA (Visual Basic for Applications)
- Python
- STATA
- R

These cutting-edge tools will equip you to optimize, simulate, and analyze complex economic models, ensuring you're ready to excel in both private and public sectors.

3. Learn from our Expert Faculty:

At King's, we take pride in offering an exceptional learning experience led by a distinguished team of faculty members who bring academic excellence to the classroom. Our economics professors are more than just educators – they are industry professionals, economists, and researchers who are committed to helping you succeed.

The Economics program at King's has been extremely rewarding for me. The program, along with the many extracurricular opportunities available through it, helped develop my character and skillset. It was especially helpful in preparing me for the research component of my master's program at the University of Toronto. The program, the environment, as well as the professors and their willingness to help really shaped my success thus far."

Ester Gerassime '18, HSP in Economics

PROGRAM HIGHLIGHTS

4. Be Prepared for a Graduate Program Pathway:

Our Honors Economics program prepares our students for research intensive graduate programs. The most common graduate school pathway for our graduates is a Masters and PhD program in Financial Economics.

Our students are known to receive large scholarships and teaching assistantships that fully cover the cost of their graduate studies. They have gained acceptance into globally competitive programs at well-known universities (Cambridge, Oxford, LSE, NYU, Columbia, Cornell, Northwestern, Carnegie Melon and Johns Hopkins.).

Other pathways include graduate studies in International Affairs, Global Affairs, International Relations and Public Policy as well as Law (LLB) and Master of Business (MBA).

First Year Courses:
