## ECONOMICS – MODULE CHECKLIST

(Eff. Sep. 2020. Revised Sep, 2020)

### Course Substitutions:

Students registered in modules that require 2200-level Economics courses may NOT take the 2100-level versions of these courses and count them toward their modules. Generally, 2200-level Economics courses are not offered during summer school. If you are registered in a Major or HSP, and intend to go to summer school, you must plan to take non-Economics courses.

Students who have completed the appropriate 2100-level Economics courses before admission to a Major or HSP with a minimum grade of 70% in each, and a minimum average for those courses of 75%, may be admitted to the Honors Specialization or Major modules:

Macro I 2220A/B → 2152A/B    Econometrics I 2222A/B → 2122A/B    Micro I 2260A/B → 2150A/B  
 Macro II 2221A/B → 2153A/B    Econometrics II 2223A/B → 2123A/B    Micro II 2261A/B → 2151A/B

Students should note the mathematics requirement for some of the courses in these modules.
