COURSE DESCRIPTION:

An introduction to the study of childhood and law in Canada. By examining specific cases, statutes, treaties, and practices, students will have an opportunity to increase their understanding of the most relevant doctrines, principles, and debates about childhood in Canadian legal and political culture.

In the Fall 2025 version of this course, students will learn about the doctrine of children's right to protection by the state (*parens patriae*) and the best interest of the child test, custody and access law, child support, corporal punishment and parental rights, the duty to report, children's evidence and the laws that protect them from sexual abuse, the role of liability law in remedying harms suffered by children in care, and the establishment of cultural rights of Indigenous people in Canada through Residential School litigation.

Antirequisite(s): The former CSI 2250F/G, the former CSI 2256F/G, and the former CSI 2253F/G.

LEARNING OUTCOMES:

CYS 2212F contributes to Program Learning Outcomes 1, 2, 4, 6 and 9

- CYS students acquire a general knowledge of the key concepts, theoretical approaches and assumptions within the field of childhood and youth studies. They come to see children as competent social actors and understand the implications of this fact for children's participatory rights in a local, national and global contexts. Those who obtain an Honours Specialization (HSP) in CYS demonstrate the ability to assess issues and critique arguments about the politics of childhood, social justice for children, and children's rights and capabilities in various institutional contexts.
- CYS students become familiar with interdisciplinary approaches to childhood and learn to evaluate and distinguish between them. Those who complete an HSP come to

understand how these approaches intersect with other fields and disciplines, and formulate their own research questions in upper division seminars.

- CYS students apply analytic tools within childhood studies, and defend their ideas and arguments in oral and written forms. HSP students conduct research in childhood studies. Apply and defend ideas and arguments in speech and writing and in communication with others.
- CYS students come to appreciate that the way we position children and youth as persons shapes our policy positions and the research questions. HSP students develop the ability to place children’s and youths’ own experiences and perceptions at the center of research methods and policy/legal debate.
- CYS students gain the ability to communicate accurate information and clear arguments orally and in writing.

COURSE POLICIES:

CYS AI Prohibition Statement:

Intentional usage of artificial intelligence or language generation or translation applications by students to summarize readings or complete assigned work for this course must be approved by the instructor and noted by the student in the submitted work itself. This mandate does not refer to aspects of AI programming embedded into applications such as Word, Chrome, etc. It applies to all intentional usage of AI as a ‘co-reader’ or ‘co-writer.’ Students must do their own reading and writing to construct their own voices as democratic citizens. They are not allowed to write text and feed it into a computer application to improve it or translate it. Asking an application to compose text and then changing words before submitting it as your own, constitutes plagiarism.

The use of Grammarly or similar applications is prohibited. Using plagiarism checkers to see if plagiarized text has been altered enough to avoid detection is itself a form of academic dishonesty. Students must compose text, choose words, construct logic flow, structure sentences and paragraphs using their own minds and in response to what they read, hear, and experience. When you borrow words or ideas from another person or from a machine this must be placed in quotation marks and properly cited.

Minimum Attendance Requirement:

Students must attend at least 50% of the moots to pass the course.

Scheduling Expectations and Exceptions:

It is expected that students will schedule appointments and other responsibilities to avoid conflicts with the course.

CYS Late Penalty Statement:

Penalties for late papers or projects may be avoided if extensions are requested in advance. Otherwise, a two-mark deduction will be taken for each of the first five days it is late (including weekends). After 5-days without communication, a zero will be assigned.

Students are expected to schedule appointments and other responsibilities around class time. To be excused from participatory requirements (attendance or homework, etc.) due to temporary illness or an unavoidable scheduling conflict, contact the instructor directly via email as soon as you are aware of the problem. Ordinary problems of this nature do not require documentation or communication with the Dean's Office; they will be dealt with by the course instructor.

If a student experiences a disruption in their ability to study or participate in the course for more than one week, or if there is a personal loss or trauma of a serious nature, they may request more extensive accommodations, counselling, and other forms of help. The best way to do this is to contact the instructor and/or the Academic Dean's Office.

KING'S UNIVERSITY COLLEGE
GENERAL COURSE POLICIES
2025-2026

1. Academic Accommodations, Consideration for Absences

Academic Accommodation (Accessibility)

Accessibility Services works to ensure that academic programs are accessible to all students, and supports students who may have a condition related to, but not limited to, vision, hearing, mobility, different ways of learning, mental health, chronic illnesses, chronic pain, autism spectrum disorder, ADD/ADHD, and temporary conditions (beyond short-term academic consideration). Accessibility Services provides recommendations for accommodation based on medical documentation or psychological and cognitive assessment. The accommodation policy can be found here [Academic Accommodation for Students with Disabilities](#). Information on Accessibility Services at King's can be found [here](#).

Academic Consideration for Student Absence

If a student is unable to meet a course requirement due to substantial but temporary extenuating circumstances (medical or compassionate), they should follow the procedures below.

In some cases, where instructors have built flexibility into their assessments, this flexibility will already address consideration needs.

Requests for academic consideration should be directed to the Academic Advising Office of your faculty/college of registration. Requests must be made as soon as possible and no later than 48 hours after the missed assessment.

As a rule, documentation is required for academic consideration. For academic consideration requests on medical grounds, the Student Medical Certificate is available at https://www.kings.uwo.ca/kings/assets/File/currentStudents/courses_enrollment/exams_and_tests/SMC-Feb-2025.pdf.

Students are permitted one academic consideration request without supporting documentation per term per course.

Instructors may designate one assessment per half-course weight as requiring formal supporting documentation. Please refer to the course outline for each course.

For further information, please see:

https://uwo.ca/univsec/pdf/academic_policies/appeals/academic_consideration_Sep24.pdf

Absences from Final Examinations

If you miss the Final Exam, contact the Academic Advising Office of your faculty/college of registration as soon as you are able to do so. They will assess your eligibility to write the Special Examination (the name given by the University to a makeup Final Exam).

You may also be eligible to write the Special Exam if you are in a “Multiple Exam Situation” (e.g., more than 2 exams in 23-hour period, or more than 3 exams in a 47-hour period).

If a student fails to write a scheduled Special Examination, the date of the next Special Examination (if granted) normally will be the scheduled date for the final exam the next time this course is offered. The maximum course load for that term will be reduced by the credit of the course(s) for which the final examination has been deferred. See the Academic Calendar for details (under Special Examinations).

Religious Accommodation

Students should consult the University's list of recognized religious holidays, and should give notice in writing to the instructor and Academic Advising Office if a course requirement will be affected by a religious holiday/observance. Notice must be given as early as possible, and no later than two weeks prior to an examination, and one week prior to a midterm test date. It is the responsibility of such students to inform themselves concerning the work done in classes from which they are absent and to take appropriate action.

3. Statement on Use of Electronic Devices

Use of Electronic Devices: Unless explicitly stated otherwise, you are not allowed to have a cell phone, or any other electronic device, with you during tests or examinations. Unauthorized possession of such a device during a test or examination constitutes an academic offence.

Use of Laptops, Tablets, and Smartphones in the Classroom: King's University College at Western University acknowledges the integration of new technologies and learning methods into the curriculum. The use of electronic devices such as laptop computers, tablets, or smartphones can contribute to student engagement and effective learning. At the same time, King's recognizes that instructors and students share jointly the responsibility to establish and maintain a respectful classroom environment conducive to learning.

The use of electronic devices by students during lectures, seminars, labs, etc., shall be for matters related to the course at hand only. Students found to be using electronic devices for purposes not directly related to the class may be subject to sanctions under the Student Code of Conduct; see <https://www.kings.uwo.ca/current-students/student-affairs/code-of-student-conduct1/>

Inappropriate use of electronics (e.g., laptops, tablets, smartphones) during lectures, seminars, labs, etc., creates a significant disruption. As a consequence, instructors may choose to limit the use of electronic devices in these settings. In addition, in order to provide a safe classroom environment, students attending in-person class sessions are strongly advised to operate laptops with batteries rather than power cords.

4. Statement on Academic Offences

King's is committed to academic integrity. Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, is posted at

http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf

It is expected that students will submit work that is truly their own, completed without external assistance (human or artificial) except as explicitly permitted by the course instructor. Check with you instructor on what tools, including generative AI (ChatGPT, translation tools, grammarchecking tools) are permitted in the course. Because a tool is permitted in one course, that does not mean it is permitted in other courses.

All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system; see <https://elearningtoolkit.uwo.ca/tools/Originality Reports - TurnItIn.html>.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

5. Copyright of Course Material

Lectures and course materials, including PowerPoint presentations, tests, outlines, and similar materials are protected by copyright. Faculty members are the exclusive owner of copyright in those materials they create. Students may take notes and make copies for their own use. Students may not allow others to reproduce or distribute lecture notes and course materials publicly (whether or not a fee is charged) without the express written consent of a faculty member. Unauthorized sharing of class content is subject to academic discipline.

Similarly, students own copyright in their own original papers and exam essays. If a faculty member wishes to post a student's answers or papers on the course website, they should ask for the student's written permission.

6. Use of Recordings

Participants in this course are not permitted to record the sessions, except where recording is an approved accommodation and/or the participant has the prior written permission of the instructor. Unauthorized recording and/or sharing of class content is subject to academic discipline.

7. Policy on Attendance

Any student who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course, will be reported to the Dean of the Faculty offering the course, after due warning has been given. On the recommendation of the department concerned, and with the permission of the Dean of that Faculty, the student will be debarred from taking the regular examination in the course.
