**COURSE DESCRIPTION**

Professional counselling and psychotherapy; various processes and techniques of therapeutic counselling; special relationship problems; transference, resistance; interpretation techniques and group counselling; special areas of application of psychotherapeutic counselling: marriage, family, human relations in education and in industry, counselling and problems of values.

*Antirequisite:* [Psychology 3991F/G](#) Special Topics: Introduction to Counselling (Brescia 2013-14).

*Prerequisite:* [Psychology 2840F/G](#) (or Psychology 2800E, Psychology 2820E, [Psychology 2830A/B](#), [Psychology 2855F/G](#) or [Psychology 2856F/G](#)) and registration in the third or fourth year of Honours Specialization, Honours Double Major, Major or Specialization in Psychology, Honours Specialization in Applied Psychology, or permission of the Department.

Unless you have either the requisite for this course or written special permission from your Dean to enrol in it, you may be removed from this course and it will be deleted from your record. This decision may not be appealed. You will receive no adjustment to your fees in the event that you are dropped from a course for failing to have the necessary prerequisites.

**COURSE LEARNING OUTCOMES**

Through readings, lectures, discussions, presentations, and writings, students will explore the significant issues related to professional counselling services. After successfully completing this course, students will have obtained a solid understanding in the following areas of counselling and psychotherapy:

- Main aspects of counselling
- The counselling process
- The important client and therapist variables that affect counselling outcomes
- The importance of the client-therapist relationship

- The importance of professional boundaries
- The ethical standards that guide the practice of counsellors
- Knowing your own qualities that may support and/or hinder attempts at being therapeutic for others.

There may be opportunities to present personal experiences and feelings to the class. We must respect each person's contribution of what may often be painful experiences (at the same time appropriate limits to self-disclosure or to the time allotted to individuals will be upheld when personal narratives are shared) and agree to hold each other's contributions *strictly confidential*. This is an academic course and all participants are required to complete the course requirements to a high standard in order to receive credit. One's strong feelings or experiences will not substitute for effort and academic achievement.

## MODE OF INSTRUCTION

In-person.

**This course begins on January 5<sup>th</sup> and continues until April 9<sup>rd</sup>, 2026, honouring all important dates derived from University approved guidelines and academic policies**

<https://www.kings.uwo.ca/current-students/academic-resources/academic-dates-and-events/>

## COURSE MATERIALS

- Readings will be available online on OWL. **No formal text** required.
- The following may be required if courses are switched to an online format or classes are missed:
  - A subscription to Crave <https://www.crave.ca/en/> in order to watch episodes of *In Treatment Season 1* (Subscription is usually \$9.99/month with 7 day free trial) or purchase of DVD season from online avenues
  - Potential Rental of the documentary *I AM* (2010) from YouTube (\$2.99) (other avenues may be available) if miss classroom showing
  - Access to **stable high-speed Internet** connection

### **Recommended**

- *Publication Manual of the American Psychological Association 7<sup>th</sup> ed.*

Classes may include lectures, films, case study discussion, etc. and will include material not contained in the course readings. Supplementary reading material will also be assigned and will be placed on reserve in the library or posted on OWL. *No attempt will be made to cover all the assigned readings in class time. Students are responsible for reading and understanding the assigned portions of the textbook and supplementary reading list, even if this material is not covered in the class lectures.*

Please note that the instructor will not provide material covered in the lectures, so any student who misses a class is responsible for obtaining the lecture information from another student.

## METHODS OF EVALUATION

|               |     |
|---------------|-----|
| Midterm       | 25% |
| Essay         | 35% |
| Participation | 10% |
| Final Exam    | 30% |

### **Midterm**

Midterm test will occur during class time on **Feb 12th** assessing knowledge of the lecture, course readings, and videos. Midterm will consist of short answer questions and one long answer question. The midterm is exempt from the undocumented academic consideration policy. Students seeking academic consideration should contact the [Academic Advising Office](#) with supporting documentation for their absence. For consideration on medical grounds, the [Student Medical Certificate \(SMC\)](#) is the appropriate documentation. Requests for consideration must be made as soon as possible and no later than 48 hours after the missed assessment. Please see the King's policy on academic consideration (in the General Course Policies document attached to this outline).

### **Essay**

Students will complete an 8-10 page research essay. Guidelines for this can be found on OWL under Assignments. Essays can be handed in **from January 15th to March 12th 2:30pm**. Because the submission deadline for this assignment already includes flexibility, the instructor reserves the right to deny academic consideration for assignments submitted past **March 12th 2:30pm**. In order to be eligible to pass the course, students must submit the essay meeting the minimum 2500 word criteria. Students must submit their essay topic via email to me by **11:59pm Feb 5th** and doing so is worth 1% of the essay grade. Not emailing me to let me know your selected topic will result in minus 1 of your possible 35 marks on this assignment.

### **Participation**

Throughout the course you are expected to interact regularly with other students, and with me, as your instructor. The course is designed to offer interactive opportunities for community learning. Each student brings their own knowledge, experience, and interests to our learning community, we will build on that and use our course material (readings, discussions, lessons, etc.) to amplify learning for everyone. We will each be responsible for our own learning progress and also for contributing to the growth of our learning community through our participation in all course activities and assessments. We will be ready to engage and connect meaningfully. We will be present, professional, respectful, and ready to contribute to our group. Participation will be based on the best attendance/engagement of 10 of 11 lecture weeks. Because participation already includes flexibility, the instructor reserves the right to deny academic consideration.

All students are expected to engage in a professional and respectful manner which includes all interactions with peers, as well as communication between TAs or your Professor. Failure to do so will result in academic discipline.

- Recording of lectures or tutorials without the explicit consent of the Professor or TA is grounds for academic discipline.
- Course content created by a faculty member is considered the faculty member's intellectual property; it should not be distributed, shared in any public domain, or sold by a student or other third party without prior written consent of the faculty member

### **Final Exam (Date: TBD)**

Final Exam will assess knowledge of the lecture, text, videos, and supplementary readings. Final exam consists of short answer questions and one long answer question. *The final exam is cumulative.*

***Students are responsible for material covered in the lectures, as well as all assigned readings and videos.***

### **DROP DATE**

The final date to drop a first-term half course without academic penalty is **March 30, 2026**.

### **ACADEMIC CONSIDERATIONS FOR ABSENCES, MISSED ASSESSMENTS**

A student seeking academic considerations for any work worth less than 10% must contact the instructor. *Any absence for legitimate reasons will be dealt with by re-weighting the term work grade accordingly or setting a timeframe to submit work at a later date.* If documentation is required for either medical or non-medical academic accommodation, then such documentation must be submitted by the student directly to the appropriate Faculty Dean's Office and **not to the instructor**. Once the petition and supporting documents have been received and assessed, appropriate academic consideration shall be determined by the Dean's Office in consultation with the student's instructor. Whenever possible, students who require academic considerations should provide notification and documentation in advance of due dates, examinations, etc. These documents will be retained in the student's file, and will be held in confidence in accordance with the University's Official Student Record Information Privacy Policy. Once the petition and supporting documents have been received and assessed, appropriate academic accommodation shall be determined by the Academic Counselling/Dean's Office in consultation with the student's instructor(s)

### **Attendance Policy**

Any student, who, in the opinion of the instructor, is absent too frequently from class will be reported to the Dean (after due warning has been given).

### **Debarment of Students from Writing the Final Examination**

1. A student may be debarred from writing the final examination for failure to maintain satisfactory academic standing throughout the academic year.
2. Any student who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course will be reported to the Dean of the Faculty offering the course (after due warning has been given). On the recommendation of the department concerned, and with the permission of the Dean of the Faculty, the student will be debarred from taking the regular examination (meaning they will be ineligible to write the final exam) Students who miss more than 3 classes will be recommended to be debarred from the final exam.

In addition, we must all contribute to the integrity of our learning environment and therefore it is important to arrive on time. Although it is understandable that during inclement weather, or having to commute among the various campuses can result in a few minutes delay, it is unacceptable to habitually arrive late for class.

### **Late assignments/Make-Up Exam**

*All assignments are to be submitted on the due date and time; The penalty is 5 marks/day late and papers that are more than 4 days late from the initial due date will receive 0%*

Additionally:

A make-up exam will be offered to students if a student misses an exam and attains support from the [academic advising office](#) (when required)

1. Advise the instructor if you are having problems completing the assignment on time, prior to the due date of the assignment. When possible, illness and personal crises must be announced **prior to the deadline**.
2. **If seeking extensions for missed work or current circumstances, please consider the application for academic accommodation on [Medical/Compassionate](#) grounds from the academic advising office**
3. Be prepared to provide documentation.
4. AAO approved missed exam will have a make-up exam
5. If students are granted Academic Consideration, work will be due 2 days after the end of the period for which the student received Academic Consideration

### **ACADEMIC INTEGRITY**

Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, at the following Web site:

[https://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/scholastic\\_discipline\\_undergrad.pdf](https://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf)

Within this course, use of generative artificial intelligence (AI) tools (such as, but not exclusive to, ChatGPT, translation tools, and grammar-checking tools) is not permitted for written work submitted for evaluation. Unauthorized use of AI will be subject to academic discipline. Students should not have AI tools write any part of their assignments or papers, either by copying and pasting or by paraphrasing the output.

Notice of Turnitin Use: All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system. Use of the service is subject to the licensing agreement, currently between The University of Western Ontario and Turnitin.com (<http://www.turnitin.com>).

## Department of Psychology Policies Related to AI Tools

### 1. Policy on the Use of Generative AI Tools

**The Department of Psychology expects that students will submit work that is truly their own, completed without external assistance (human or artificial).**

**The use of generative AI tools (such as ChatGPT) is not permitted for any submitted coursework unless express permission has been granted by your instructor.**

Students **should not have AI tools write any part of their assignments or papers, either by copying and pasting or by paraphrasing the output.** Unauthorized use of AI constitutes an academic offence and will be subject to academic discipline.

**Additional information:** Students can use AI tools to clarify questions they have about course content (e.g., you can ask ChatGPT about a course concept to help with your understanding), but students should be aware that the response may be inaccurate or inconsistent with the course content. Asking your instructor is a more effective strategy. Students should note that information provided by AI tools such as ChatGPT can include mistakes, inaccuracies, biases, and outdated information. Whenever these tools are used, students should cross-verify the information provided to them. This means verifying that the sources used by AI exist and have been accurately summarized, consulting multiple original and reputable up-to-date sources to verify information, and being cautious of bias that could be present in the information provided.

### 2. Policy on Use of Translation Tools\*

**The Department of Psychology views the unapproved use of translation or language applications as an academic offence.**

Any usage of translation applications or language generation by students to complete specific assigned work for this course **must be approved** by the instructor **prior** to submitting the work **and noted by the student in the submitted work** itself.

Writing text and then feeding it into a computer application to improve or translate your own words, changing a few words, and then submitting this text as if it was your own **constitutes plagiarism**. You must compose text, choose words, construct logic flow, structure sentences and paragraphs to organize, synthesize, interpret information with your own mind. When you borrow language or ideas from another person or from a machine this must be acknowledged with quotation marks and/or citations.

#### **Why do we have this policy?**

- Translation is intellectual work and produces intellectual property, thus any text which is translated must cite the translator.
- Psychology endeavors to advance students' linguistic, analytic, and reasoning competencies – this can not happen outside of specific language competencies.
- Earning a university degree signals that an individual has advanced literacy and communicative skill in the language of instruction at the university; this is English at King's University College at Western University. If translation machines are used by students without regulation, we will have no way of certifying whether these competencies exist and fewer mechanism for encouraging students to do the hard work to develop them.

*\* Based on the policy developed by the Department of Child and Youth Studies*

KING'S UNIVERSITY COLLEGE  
GENERAL COURSE POLICIES  
2025-2026

## 1. Academic Accommodations, Consideration for Absences

### Academic Accommodation (Accessibility)

Accessibility Services works to ensure that academic programs are accessible to all students, and supports students who may have a condition related to, but not limited to, vision, hearing, mobility, different ways of learning, mental health, chronic illnesses, chronic pain, autism spectrum disorder, ADD/ADHD, and temporary conditions (beyond short-term academic consideration). Accessibility Services provides recommendations for accommodation based on medical documentation or psychological and cognitive assessment. The accommodation policy can be found here [Academic Accommodation for Students with Disabilities](#). Information on Accessibility Services at King's can be found [here](#).

### Academic Consideration for Student Absence

If a student is unable to meet a course requirement due to substantial but temporary extenuating circumstances (medical or compassionate), they should follow the procedures below.

In some cases, where instructors have built flexibility into their assessments, this flexibility will already address consideration needs.

Requests for academic consideration should be directed to the Academic Advising Office of your faculty/college of registration. Requests must be made as soon as possible and no later than 48 hours after the missed assessment.

As a rule, documentation is required for academic consideration. For academic consideration requests on medical grounds, the Student Medical Certificate is available at [https://www.kings.uwo.ca/kings/assets/File/currentStudents/courses\\_enrollment/exams\\_and\\_tests/S\\_MC-Feb-2025.pdf](https://www.kings.uwo.ca/kings/assets/File/currentStudents/courses_enrollment/exams_and_tests/S_MC-Feb-2025.pdf).

Students are permitted one academic consideration request without supporting documentation per term per course.

Instructors may designate one assessment per half-course weight as requiring formal supporting documentation. Please refer to the course outline for each course.

For further information, please see:

[https://uwo.ca/univsec/pdf/academic\\_policies/appeals/academic\\_consideration\\_Sep24.pdf](https://uwo.ca/univsec/pdf/academic_policies/appeals/academic_consideration_Sep24.pdf)

Please note, Friday Make-Up Exams may only be written with the instructor's consent.

### **Absences from Final Examinations**

If you miss the Final Exam, contact the Academic Advising Office of your faculty/college of registration as soon as you are able to do so. They will assess your eligibility to write the Special Examination (the name given by the University to a makeup Final Exam).

You may also be eligible to write the Special Exam if you are in a "Multiple Exam Situation" (e.g., more than 2 exams in 23-hour period, or more than 3 exams in a 47-hour period).

If a student fails to write a scheduled Special Examination, the date of the next Special Examination (if granted) normally will be the scheduled date for the final exam the next time this course is offered. The maximum course load for that term will be reduced by the credit of the course(s) for which the final examination has been deferred. See the Academic Calendar for details (under [Special Examinations](#)).

### **Religious Accommodation**

Students should consult the University's list of recognized religious holidays, and should give notice in writing to the instructor and Academic Advising Office if a course requirement will be affected by a religious holiday/observance. Notice must be given as early as possible, and no later than two weeks prior to an examination, and one week prior to a midterm test date. It is the responsibility of such students to inform themselves concerning the work done in classes from which they are absent and to take appropriate action.

### 3. Statement on Use of Electronic Devices

**Use of Electronic Devices:** Unless explicitly stated otherwise, you are not allowed to have a cell phone, or any other electronic device, with you during tests or examinations. Unauthorized possession of such a device during a test or examination constitutes an academic offence.

**Use of Laptops, Tablets, and Smartphones in the Classroom:** King's University College at Western University acknowledges the integration of new technologies and learning methods into the curriculum. The use of electronic devices such as laptop computers, tablets, or smartphones can contribute to student engagement and effective learning. At the same time, King's recognizes that instructors and students share jointly the responsibility to establish and maintain a respectful classroom environment conducive to learning.

The use of electronic devices by students during lectures, seminars, labs, etc., shall be for matters related to the course at hand only. Students found to be using electronic devices for purposes not directly related to the class may be subject to sanctions under the Student Code of Conduct; see <https://www.kings.uwo.ca/current-students/student-affairs/code-of-student-conduct1/>

Inappropriate use of electronics (e.g., laptops, tablets, smartphones) during lectures, seminars, labs, etc., creates a significant disruption. As a consequence, instructors may choose to limit the use of electronic devices in these settings. In addition, in order to provide a safe classroom environment, students attending in-person class sessions are strongly advised to operate laptops with batteries rather than power cords.

### 4. Statement on Academic Offences

King's is committed to academic integrity. Scholastic offences are taken seriously and students are directed to read the appropriate policy, specifically, the definition of what constitutes a Scholastic Offence, is posted at

[http://www.uwo.ca/univsec/pdf/academic\\_policies/appeals/scholastic\\_discipline\\_undergrad.pdf](http://www.uwo.ca/univsec/pdf/academic_policies/appeals/scholastic_discipline_undergrad.pdf)

It is expected that students will submit work that is truly their own, completed without external assistance (human or artificial) except as explicitly permitted by the course instructor. Check with you instructor on what tools, including generative AI (ChatGPT, translation tools, grammar-checking tools) are permitted in the course. Because a tool is permitted in one course, that does not mean it is permitted in other courses.

All required papers may be subject to submission for textual similarity review to the commercial plagiarism detection software under license to the University for the detection of plagiarism. All papers submitted for such checking will be included as source documents in the reference database for the purpose of detecting plagiarism of papers subsequently submitted to the system; see <https://elearningtoolkit.uwo.ca/tools/Originality Reports - TurnItIn.html>.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

## **5. Copyright of Course Material**

Lectures and course materials, including PowerPoint presentations, tests, outlines, and similar materials are protected by copyright. Faculty members are the exclusive owner of copyright in those materials they create. Students may take notes and make copies for their own use. Students may not allow others to reproduce or distribute lecture notes and course materials publicly (whether or not a fee is charged) without the express written consent of a faculty member. Unauthorized sharing of class content is subject to academic discipline.

Similarly, students own copyright in their own original papers and exam essays. If a faculty member wishes to post a student's answers or papers on the course website, they should ask for the student's written permission.

## **6. Use of Recordings**

Participants in this course are not permitted to record the sessions, except where recording is an approved accommodation and/or the participant has the prior written permission of the instructor. Unauthorized recording and/or sharing of class content is subject to academic discipline.

## **7. Policy on Attendance**

Any student who, in the opinion of the instructor, is absent too frequently from class or laboratory periods in any course, will be reported to the Dean of the Faculty offering the course, after due warning has been given. On the recommendation of the department concerned, and with the permission of the Dean of that Faculty, the student will be debarred from taking the regular examination in the course.
